## SUMMARY

---

Passionate full-stack developer with expertise in building responsive web applications using the MERN stack. Skilled in creating intuitive user interfaces and scalable backends, driven by a commitment to continuous learning and delivering impactful solutions.

## EDUCATION

---

University of Mumbai

Nov 2021 – June 2025

B.E in Computer Engineering (Honors in Cybersecurity)

## EXPERIENCE

---

- Developed web applications using React.js, ensuring responsive and dynamic UIs.
- Integrated MongoDB for data storage and management in full-stack applications.
- Utilized AWS and Google Cloud for cloud-based hosting and scalability.
- Built back-end services in Python to support application logic and API integration.

## PROJECTS

---

- Food-Delivery Website (MERN with Stripe Integration) [ [GitHub](#) [Live Demo](#) ]  
Developed a full-stack food delivery website using the MERN stack, with integrated Stripe payment functionality and an admin dashboard for order management, enhancing operational efficiency and user experience.
- BookStore-MERN [ [GitHub](#) [Live Demo](#) ]  
Developed a full-stack bookstore website using the MERN stack (MongoDB, Express, React, Node.js). It features a responsive design with user authentication, book listings, and a shopping cart for users to browse, select, and purchase books online.
- MollyBears-MERN with Chatbot [ [GitHub](#) [Live Demo](#) ]  
Created a MERN stack-based website for MollyBears with integrated chatbot functionality. The chatbot assists customers by answering queries, improving user engagement and overall experience on the website.
- Coffee Shop Front-end Website [ [GitHub](#) [Live Demo](#) ]  
Developed a responsive front-end website for a coffee shop using ReactJS, HTML, and CSS, dynamically showcasing the menu, location, and services for an engaging user experience.

## SKILLS

---

- Programming Languages: HTML, CSS, JavaScript, Python
- Frameworks: React JS, ExpressJS, NodeJS, Tailwind CSS, Bootstrap
- Tools: Git, GitHub, Postman
- Databases: MongoDB
- Platforms: VS Code, Material UI, Render, Vercel, Netlify

## CERTIFICATIONS

---

- AWS Academy Graduate
- Associate Cloud Engineer- Google Cloud
- Actively Participated in hackathons
